**Name & Address**

Mid Century Telephone Cooperative  
285 Mid Century Lane  
PO Box 380  
Fairview, IL 61432

Transferee Mid Century is a cooperative organization, of which no single person or entity owns 10% or more of its equity. Its principal business is the provision of communications services. Mid Century holds 100% of the interests in Transferee CEI.

**(5) Certification pursuant to 47 C.F.R. Sections 1.2001 through 1.2003 that no party to the application is subject to denial of Federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988.**

All parties to this application hereby certify, pursuant to 47 C.F.R. Sections 1.2001- 1.2003, that no party to the present application is subject to denial of Federal benefits pursuant to section 5301 of the Anti-Drug Abuse Act of 1988.

**(6) Description of the Transaction:**

The proposed transaction contemplates Transferee Mid Century's purchase of certain exchange and exchange access telecommunications assets from Yates City, and CEI's purchase of certain interexchange telecommunications assets from C-R. The subject exchange access assets of Yates City Telephone Company serve approximately 470 access lines in the single exchange of Yates City, Illinois. The purchased exchange assets will be incorporated into Transferee Mid Century's on-going operations, and former Yates City customers will become cooperative members. The portion of the C-R interexchange assets and the approximately 251 interstate customers covered by the transaction are wholly within the Yates City service area, and will be purchased by CEI and incorporated into its on-going operations. Notifications meeting federal and state law requirements have been or will be sent to subscribers of exchange and interexchange services. After the transaction, C-R will continue to provide services to its remaining customers.

**(7) Description of the geographic areas in which the transferor and transferee (and their affiliates) offer domestic telecommunications services, and what services are provided in each area:**

***Transferors***

Transferor Yates City is a rural telephone company, operating a single exchange in and around the town of Yates City, in Knox County, Illinois. It serves approximately 470 access lines (369 residential and 95 business). The telephone service area covers approximately 50 square miles. C-R provides interexchange and international services to approximately 251 subscribers in Yates City that are the subject of the instant transaction. C-R will continue the provision of interexchange and international services to its remaining subscribers in non-contiguous service areas.

Fairpoint Communications, Inc. ("Fairpoint"), the parent company of Yates City Telephone Company, is a geographically diverse rural telephone company, owning 31 local telephone companies in 18 states with approximately 252,000 access line equivalents in service. Fairpoint affiliates provide customers local exchange and exchange access services, long distance voice, data, Internet and broadband offerings, and enhanced calling features, digital subscriber line services, Internet access, advanced data services and cable television services.

***Transferees***

Transferee Mid Century is a rural telephone company, operating 13 exchanges in western Illinois, serving approximately 4319 access lines (3720 residential and 599 business). Its telephone service area covers approximately 600 square miles. Mid Century's wholly-owned subsidiary, CEI, provides interexchange and international services to approximately 3250 subscribers located within the Mid Century service area.

In addition to exchange, exchange access, interexchange and international service, Transferees and their affiliates provide a variety of telecommunications and information services to its cooperative members, including Internet, broadband, enhanced calling features and cable television services.

**(8) Statement as to how the application fits into one or more of the presumptive streamlined categories in section 63.03 or why it is otherwise appropriate for streamlined treatment:**

Because the Yates City exchange abuts territory currently served by Mid Century, Applicants understand that the instant transaction does not qualify for presumptive streamlined treatment. Nonetheless, prompt processing is appropriate under the circumstances because the very small number of subscribers affected by this transaction result in no perceptible change in the market or market share of any party. All interexchange carrier parties continue to have a market share in the interstate, interexchange market of less than 10%, and all LEC parties continue to have, individually or collectively, fewer than two (2) percent of the subscriber lines installed in the aggregate nationwide

**(9) Identification of all other Commission applications related to the same transaction:**

Application for International Section 214 authorization filed contemporaneously herewith.

**(10) Statement of whether the applicants are requesting special consideration because either party to the transaction is facing imminent business failure:**

No party to the application is requesting special consideration because of imminent business failure.

**(11) Identification of any separately filed waiver requests being sought in conjunction with the transaction:**

There are no separately filed waiver requests being sought in conjunction with the transaction. Upon completion of the transaction, Transferee will absorb existing subscribers as cooperative members and incorporate the exchange in its current study area. No study area waiver will be required for this consolidation.'

**(12) Statement showing how grant of the application will serve the public interest, convenience and necessity, including any additional information that may be necessary to show the effect of the proposed transaction on competition in domestic markets:**

The proposed transaction will serve the public interest by ensuring no interruption of service and no inconvenience to the affected customers. Transferees have the technical, financial and managerial capabilities to provide quality service to Transferors' customers. Each local exchange subscriber will have all the rights and privileges of a cooperative member, including voting for a representative to the Board of Directors and eligibility for capital credits that may be allocated. In addition, all of Transferees' existing subscribers will benefit from the increase in economies of scale resulting from the acquisition.

Applicants respectfully request that the Commission grant the Application as soon as practicable.

**Partial Transfer of Control of International Section 214 Authorization**

Applicant C-R Long Distance, Inc. resells switched international long distance toll services to residential and business customers pursuant to an international Section 214 authorization granted by the Commission under File No. ITC-214-20000320-00156.
